Locklizard Safeguard PDF Security

Locklizard Safeguard protects digital documents, training courses and ebooks in PDF format from unauthorized use and misuse by controlling who can access them, how and when they can be used, and from what devices and locations. Locklizard ensures your IPR and revenue streams remain protected at all times regardless of where your content resides.

On which products? - Safeguard and Safeguard Enterprise

When does it expire? - July 22nd 2022

"Safeguard PDF Security was exactly the type of solution that we had been looking for – simple way to protect our electronic publications that are being sold to customers, while maintaining control over the documents.

Ease of use, excellent customer service and pre-sales support, all contributed to an easy purchase decision."

Aviationexam

Features

- Stop unauthorized sharing of documents
- Stop users copying and pasting document content into other applications
- Stop users editing/modifying document content
- Stop screen grabber applications taking screenshots
- Control printing - stop prints, limit prints, or allow unrestricted printing
- If you enable printing then we prevent printing to file drivers (e.g. PDF printers)
- Dynamically watermark content with user details – name, email, company, date/time

- Expire documents after a no. of views, days, prints, or fixed date, on a user or global basis
- Expire user access to all documents on a fixed date
- Revoke documents and/or user access anytime
- Allow offline use, allow flexible use, or always enforce users to be online
- Lock use to specific authorized devices or USB sticks
- Prevent use on BYOD or control BYOD location use
- Lock user access to documents by country and IP locations (i.e. stop use outside the office)
- Log document prints and views
